

MISSOURI SWMD DISTRICT ANNUAL REPORT

FISCAL PERIOD: JULY 1ST - (PREVIOUS YEAR) TO JUNE 30TH - (CURRENT YEAR) | 2017

District I - East Central Missouri Solid Waste Management District

SOLID WASTE MANAGEMENT DISTRICT ANNUAL REPORT

1 (a). What waste goals did the district have for the fiscal year period and what actions did the districts take to achieve these goals?

The East Central Missouri Solid Waste Management District Executive Board and its Advisory Council have identified needs within the region and continuously work to address needs as funding allows. In April 2010, the four counties in the Region I District collaborated to establish the East Central Missouri Recycling Center. The facility is centrally located and serves all counties in the region. The recycling center has proven to be an effective way for the district to address as many needs as possible in an efficient manner. The facility accepts a variety of products, reducing the solid waste stream. In addition to providing access to recycling traditional items, the facility allows the district to address the identified needs of electronics recycling and scrap tires. The success of the East Central Missouri Recycling Center has led the Executive Board and Advisory Committee to make its continued operation a priority. One of the needs identified that the recycling center has not been able to address is that of household hazardous waste. With funding a concern, the Region I District tries to find other opportunities in neighboring districts which residents can use. Also, staff works to promote any opportunities such as the Missouri Department of Natural Resources' free pesticide collections for households and farmers.

1 (b). What waste goals does the district have for the upcoming fiscal period and what actions does the district plan to take to achieve these goals. Please include the types of grant proposals that will be sought for the upcoming period to assist in meeting these goals.

The Region I District's goals are to continue to address the needs identified in its Work Program and Plan update as funding allows. As stated, the East Central Missouri Recycling Center has proven to be a very effective way to address several identified needs in the most economical way possible. For this reason its operation will continue to be a priority. The Region I Executive Board has supported and approved funding a grant to continue operations through June 2018. It is estimated that the facility will divert 200 tons from landfills.

2 (a). What recycling goals did the district have for the fiscal year period and what actions did the district take to achieve these goals?

| | GOAL: | ACTION: |
|---|---|---|
| 1 | Improve convenience of recycling services and programs. | The Region I Executive Board continued to make the East Central Missouri Recycling Center a priority and approved a grant for its continued operation. The facility is available for residents in all four counties within the region, giving them access to one location that accepts a wide variety of materials including paper, cardboard, glass, plastics, metals, clothing/textiles, electronics, white goods, fluorescent bulbs, waste oil and scrap tires. Having one location to take all of these items makes recycling much more convenient for residents. Many residents live outside city limits and do not have access to curbside programs so the facility gives them the opportunity to recycle. In addition, the recycling center accepts several items not typically accepted in curbside programs. |
| 2 | Electronics recycling. | The East Central Missouri Recycling Center accepts electronics during hours of operation all through the year. Residents do not have to wait (or possibly miss) a special collection. Fees are charged for monitors and televisions. With the loss of the electronics vendor the recycling center used, staff contacted an electronics recycler that built a new state-of-the-art facility within the district. Arrangements were made to take electronics collected at East Central Missouri Recycling Center to this electronics recycler. |
| 3 | Scrap tires | After working with the Missouri DNR Scrap Tire Unit, the East Central Missouri Recycling Center began accepting scrap tires in 2012. The facility continues to provide this opportunity for residents in the region. A fee is charged for each tire. Residents in the Region I District are able to drop off scrap tires during hours of operation throughout the year. |

2 (b). What recycling goals does the district have for the upcoming fiscal year period and what actions does the district plan to take to achieve these goals? Please include the types of grant proposals that will be sought for the upcoming period to assist in meeting these goals?

Because the East Central Missouri Recycling Center has proven to be an effective way to provide access for residents throughout the district to recycle a wide variety of items, the Region I Executive Board and its Advisory Committee have identified its continued operation as a priority. Grants for the facility's operation will continue to be submitted. Grant proposals for recycling will be accepted.

3 (a). What resource recovery goals did the district have for the fiscal year period and what actions did the district take to achieve thee goals?

Resource recovery for the Region I District is achieved through the East Central Missouri Recycling Center. The district funded a grant for its continued operation.

3 (b). What resource recovery goals does the district have for the upcoming fiscal year period and what actions does the district plan to take to achieve thee goals? Please include the types of grant proposals that will be sought for the upcoming period to assist in meeting these goals.

The Region I District plans for continued operation of the East Central Missouri Recycling Center. Staff will explore additional opportunities for resource recovery.

4. Summarize the types of projects and results during the fiscal year, including previous fiscal years as part of the 5 year reporting. (add additional rows if needed)

| | PROJECT #: * | NAME OF PROJECT RESULTING IN TONNAGE DIVERSION FROM LANDFILLS: | COST OF PROJECT: | NUMBER OF TONS DIVERTED: | AVERAGE COST PER TON DIVERTED: |
|---|--------------|---|------------------|-----------------------------|-----------------------------------|
| 1 | I2017-002 | East Central Missouri Recycling Center Operations | 68,000.00 | 279.2700 | 243.49 |

5. Summarize projects not resulting in Tonnage Diversion

| | LIST PROJECTS BY NUMBER AND NAME NOT RESULTING IN TONNAGE DIVERSION FROM LANDFILLS. | COST OF PROJECT: | MEASURABLE OUTCOMES ACHIEVED FOR THESE PROJECTS: |
|--|---|------------------|---|
|--|---|------------------|---|

6. Identify separate statistics for items banned from landfills:

| | LIST PROJECTS BY NUMBER AND NAME RESULTING IN TONNAGE DIVERSION FROM LANDFILLS. | LIST COST OF PROJECT RESULTING IN TONNAGE DIVERSION: | NUMBER OF TONS DIVERTED FROM PROJECT: | AVERAGE COST PER TON DIVERTED: | MEASURABLE OUTCOMES ACHIEVED FOR THESE PROJECTS: |
|--|---|---|---|-----------------------------------|---|
|--|---|---|---|-----------------------------------|---|

7. Identify separate statistics for items NOT banned from landfills:

| | LIST PROJECTS BY NUMBER AND NAME RESULTING IN TONNAGE DIVERSION FROM LANDFILLS. | LIST COST OF PROJECT RESULTING IN TONNAGE DIVERSION: | NUMBER OF TONS DIVERTED FROM PROJECT: | AVERAGE COST PER TON DIVERTED: |
|--|--|--|--|-----------------------------------|
|--|--|--|--|-----------------------------------|

8. Describe your district's grant proposal evaluation process.

The Region I District Executive Board is responsible for reviewing and approving grant requests. Applications are scored and require a minimum rating of 65 to be considered for funding. The Advisory Committee, though not voting, provides input. Should any member have any conflict of interest in regard to a submitted proposal, he/she excuses themselves from the process.
